

CC9000 Series Premium Coil Cords

Description

The 2.5mm polyurethane coil insulation offers excellent coil memory. A unique, flat face snap allows for a universally solid connection to standard wrist bands. A shorter, swivel type banana jack increases coil life, prevents cord tangles and fits most bench grounds. Equipped with a 1 meg ohm resistor. Comes in 6' or 12' lengths.

Meets or exceeds requirements of ANSI ESD-S20.20 and ESDA Standard 1.1-2006
